# HATCHERIES AND DEALERS PARTICIPATING in THE NATIONAL POULTRY IMPROVEMENT PLAN

---

The publication of this list is for the purpose of developing greater efficiency in the operation of the National Poultry Improvement Plan. Additional information regarding these hatcheries and dealers may be obtained by writing to them, or to the Official State Agency in their respective States. Due to the fact that changes frequently occur in this list, it is suggested that anyone desiring to purchase hatching eggs or chicks from the listed hatcheries write the Official State Agency before making such purchase. Supplements to this publication, containing changes in participation, will be published periodically.

---

## FOREWORD

The hatcheries and dealers listed in this publication are participating in the National Poultry Improvement Plan, according to reports submitted by the Official State Agencies. The participants are listed alphabetically by States and according to the U. S. Pullorum-Typhoid Classification of their products.

The figures in the column immediately following the name and address of the participant show, for hatcheries, the hatching egg capacity (manufacturers rating including setting and hatching trays). For dealers, this column indicates the type of products the dealer offers for sale by the following code:

DE - Hatching Egg Dealer  
DC - Chick Dealer  
DEC - Dealer in both hatching eggs and chicks

The letters which appear under the appropriate classification heading show the breeds or varieties and crosses of chicks and hatching eggs produced by the participant. The code used to indicate the breed or variety is as follows:

a - White Leghorn	j - Delaware	s - Silver Laced Wyandotte
b - Rhode Island Red	k - White American	t - Black Minorca
c - Barred Rock	m - Buff Orpington	u - Buff Minorca
d - White Rock	n - Brown Leghorn	v - White Minorca
e - New Hampshire	o - Jersey White Giant	w - California Gray
f - White Wyandotte	p - Jersey Black Giant	x - Ducks
g - Black Australorp	q - Buff Plymouth Rock	y - Geese
h - Cornish	r - Ancona	z - Game Birds
i - Incrossbred		(pheasants, quail, etc.)

Crosses are designated by combining the code letters of the breeds or varieties involved with the code letter of the male indicated first.

Example: ce - Barred Rock males mated to New Hampshire females.

Breeds or varieties not included in the code are designated by numbers, which are identified by footnotes at the bottom of the page on which the number appears.

This list should be helpful in finding the classification of the product of the hatchery or dealer from whom purchase is to be made. Information concerning the status of products of hatcheries not listed may be obtained by writing to the Contact Representative.

The name and address of the Contact Representative and the Official State Agency are shown at the beginning of the list of hatcheries for each of the cooperating States.
